

MODEL POLICY #11

ASSESSMENT OF EDUCATIONAL GOALS

Annually, prior to the beginning of the school year, the School Board shall provide parental or guardian notice of the pupil academic standards, adopted under s. 118.30 (1g) (a) 1., that will be in effect for the school year. The school board may provide the notice required under this paragraph electronically, including by posting the notice or a link to the pupil academic standards on the school district's Internet site.

At least once every two months, the School Board shall include as an agenda item for board meetings an assessment of student achievement in relation to the pupil academic standards in effect for the district. The Board shall first prioritize assessment of student achievement in English language arts and math. If the Board determines student achievement is not meeting the applicable pupil academic standards, the Board shall take appropriate action in an effort to meet such standards.
