All—

Today's round of edits from EC resulted in a number of comments and significant changes to the document we were looking at yesterday evening.

Attached are 3 documents:

- The version from 7 a.m. this morning
- A version, following EC and Derek edits, at the end of the business day
- A new 9 p.m, clean version that does its best to incorporate everyone's feedback and cut down some of the repetitive language.

I know the next decision day isn't until Thursday, but recognize that tomorrow is busy and Chancellor would like a locked and final version to share with System.

Thanks for any input or reactions—

John
